

Robber Pair Flee With \$65,000 Roll

Take Pouch from Train On B. & M. Branch, Salisbury, Mass.

Money Consigned From Federal Reserve Bank in Boston to Amesbury Bank—Was Cash Balance Against Checks for Several Factories—Near Riot When Factory Hands Believe Wages Would Be Held Up—Army of State and Local Police Find No Trace of Pair

Boston, July 25.—(P)—Following a carefully planned course of action, two bandits today held up two men on a Boston and Maine branch train in Salisbury selected a small pouch containing \$65,000 consigned to an Amesbury bank, leaped from the moving car and escaped in a waiting automobile. A small army of state and local police and citizens had found no trace of the robbers to date.

The loot was a money consignment from the Federal Reserve Bank in Boston to the Amesbury National Bank in Amesbury, designed as cash balance against which checks for several factories were to be drawn. At Newburyport the money sack was placed on the small branch line train which runs six miles through Salisbury to Amesbury. With other mail the cash was in a combination bag and smoking car, the last of the three car train.

The two robbers rode as passengers (Continued on Page 10—Col. 4)

Warns Against Too Promiscuous Wearing of Eyeshades

Boston, July 25.—(P)—Warning that positive danger to vision lies in the country-wide popular vogue of wearing eyeshades, Dr. Joseph H. O'Neil, president of the Massachusetts Society of Optometrists, Phobophobia, a very painful condition of the retina, he declared, will result from promiscuous wearing of eyeshades, which hereabouts gained popularity from the pictured success of Helen Wills on the tennis courts. "The use of such eye shades," Dr. O'Neil said, "may prove to be of permanent detriment to human vision unless discretion is used as to when and where to wear them. The color of the shades is most important. Nature has provided for the eye by practically all normal light conditions with which a healthy eye has to contend. By the use of these shades under normal conditions, rays of light that are necessary to produce a healthy stimulus to the eye are cut off and the eye soon loses its ability to function as nature intended."

In other words, the eye becomes accustomed to these shades, which sooner or later are bound to produce phobophobia, or a very sensitive and painful condition of the retina. If people insist on wearing such shades, light green or amber colors are preferable. Red shades should be absolutely eliminated as they produce far too great stimulus to the eye.

The vogue cap in New England has spread rapidly from the tennis court and golf course into all walks of business and daily life. It has become most popular with young people. These caps have semi-transparent veils of various colors while thin cloth straps cross the top of the head to hold it securely in place.

Positively No Chance Of U. S. and Canada Uniting, His View

WILLIAM R. RIDDELL
Chief Justice of Ontario

Portland, Me., July 25.—(P)—"Absolutely impossible," Chief Justice William R. Riddell of the Appellate Division of the supreme court of the Province of Ontario, replied without hesitation today when asked by a reporter if he believed the United States and Canada ever would unite.

"We are separate nations," he added. "We are distinct from England. We have our own king, our own government, our tariff, and everything that makes us a nation by ourselves. Canada and the United States never will unite."

Judge Riddell, who holds an honorary degree from Colby College, is visiting in this city and vicinity with Mrs. Riddell tonight.

Asked his opinion as to the probable outcome of the foreign debt settlements, he declared it was entirely "out of his line," and he did not feel qualified to express one. "I do feel," however, he said, "that the only solution of the problem is for the nations who owe, to pay their debt."

Two Seriously Hurt When Auto Crashes Into Hub Street Car

Boston, July 25.—(P)—Two men were seriously injured, one perhaps fatally, when an enclosed automobile in which they were riding crashed into a crowded street car at an intersection in the Dorchester district at midnight tonight.

A man believed to be Edward Sullivan of Nashua, N. H., and driver of the car, was taken to City Hospital with a fractured skull, while John Dugan, also of Nashua, a passenger, was held on a charge of intoxication. Thomas Mullaney of Dorchester, the third man in the vehicle, suffered a concussion of the brain and numerous cuts and internal injuries. His name was on the danger list as was Sullivan's.

Compare Budget of '80 With One More Recent

Ithaca, N. Y., July 25.—(P)—The budget of a farmer of 50 years ago has been received by Cornell Agricultural College showing annual maintenance of a family of five to have been \$221.45 compared with \$252.75 for the same number of persons in the succeeding generation of the same family. Outlay for food in 1880 was set at \$52 a year, against \$447 for "trips and amusements" nothing against \$50, and "general farm operation" \$15 as compared with \$160 now.

Fatally Hurt When Car Leaves Highway

Ossipee, N. H., July 25.—(P)—Thomas F. Fleming of Worcester, Mass., was fatally injured today when an automobile which he was driving left the state road at a sharp curve between Moultonboro and West Ossipee. Bernard Tilton of Moultonboro, and several who were riding in the car were injured.

The car was pinned under

Mrs. Hall in Jail Again In Slaying

Prosecutor Says Grand Jury to Consider Mass of New Evidence

Points to Wealthy New Jersey Woman As Murderer of Her Husband And His Alleged Sweetheart Four Years Ago In New Brunswick—Was Rector Fashionable Church—Woman Choir Singer—"Pig Woman" Again Quizzed

Somerville, N. J., July 25.—(P)—Mrs. Edward Wheeler Hall, wealthy and socially prominent resident of New Brunswick, was in jail today faced with a "mass of new evidence," pointing to her as the murderer of her husband and his alleged sweetheart.

Prosecutor Bergen said he would take this evidence before the grand jury and ask for murder indictments against Mrs. Hall. The April grand jury is still technically in session and may be recalled for active duty at any time.

The arm of the law reached across a four year span in a midnight arrest last night to serve a warrant on Mrs. Edward Wheeler Hall, charging her with the murder of her husband, rector of fashionable St. John's Episcopal church in New Brunswick, and Mrs. Eleanor R. Mills, a choir singer in his church.

But the hands that served the law were not those of local authorities, but of state police and officers from Jersey City.

Today Prosecutor Toolan announced (Continued on Page 4, Col. 4)

Mexican Catholics To Go To Church Without The Priests

Mexico City, July 25.—(P)—While labor and political groups have organized extensive parades for Sunday as a manifestation of support of the government's religious policy, Catholics throughout the country plan to go to their churches for prayer despite the absence of officiating clergymen.

The last Catholic church services at which priests will officiate will be held tomorrow, an order to this effect having come from the office of the archbishop of Mexico, the Most Rev. Mora y del Rio. Priests are instructed to leave the churches and not conduct services on Sunday, in order to synthesize the cessation of services with the going into exile of the priests.

Unrest, uncertainty and apprehension are manifest everywhere, and Mexico City is filled with all sorts of rumors and reports. Instructions have been given to the police by order of Attorney General Ortega to disarm all Catholics.

This, the attorney general announced, is in consequence of reports that several hundred Catholics are being held by certain groups, which the authorities fear are for the purpose of fomenting forceful opposition to the religious laws.

The authorities in some places also have taken a hand in the case of newspaper editors publishing articles and editorials considered objectionable. Two Chihuahua City and a Mexican City editor have been cited on this charge, which is equivalent to preferring a complaint and may or may not involve actual imprisonment. The religious regulations forbid republications or those of matter of religious character commenting on, or carrying any news items, concerning the government's activities.

Some foreign diplomats, including the French and Spanish, are giving serious consideration to a movement seeking to have the diplomatic corps offer its services as friendly mediators in the religious struggle. American ambassador Sheffield, who is the dean of the corps, has not taken any official action in this respect, nor has the plan been presented to him officially.

Again today waves of humanity of amazing magnitude surged around the Mexico City cathedral, showing an anxiety to perform their devotions. Crowds jammed the courtyard, overflowing into the plaza; some fringes of the crowd even reached the walls of the presidential palace.

Four Badly Hurt In Crash Car And Truck Near Rumford

Rumford, Maine, July 25.—(P)—Mrs. Frank Doherty of Rumford sustained a fractured skull and Clark Farnum, also of Rumford, broken ribs and internal injuries which will probably prove fatal to them, in an automobile crash at Riverside Park today. Mrs. Clark Farnum and A. S. Farnum of Dixfield were also badly injured but not expected to recover. The car in which they were riding was rammed by a truck loaded with wood which was driven by A. S. Farnum. All were thrown out and the car was pinned under

No '26 Dividend Waterville Cotton Mill

Waterville, Maine, July 25.—(P)—The Lockwood Company, a local cotton mill, was announced today, would pass the dividend this year. The last dividend was declared a year ago. W. W. Quinton, agent of the mill, stated that the plant would close for the month of August due to the dullness of business.

REV. FRANK NORRIS INDICTED IN KILLING CHIPPS, LUMBERMAN

Fort Worth, Tex., July 25.—(P)—The Rev. J. Frank Norris, pastor of First Baptist church and nationally known fundamentalist, was indicted today by the Tarrant county grand jury for the murder of D. E. Chipps, lumberman, in the church office on July 17.

Mayor Meacham, Chipps' friend, was called as a witness just before the indictment was returned, after two weeks of investigation.

Nearly two score witnesses, the larger part of them members of Dr. Norris' church, appeared before the grand jury. Other witnesses on whose testimony the indictment was returned included the ambulance driver and city police officers and detectives. The 14 year old "mystery witness," who disappeared after the slaying and whose name has been withheld by the district attorney, not called, although it was stated he may be a state's witness at the trial.

Announcement of the return of a true bill against Dr. Norris came after the pastor's statement late last night that he was expected to counsel, which followed by a few hours the announcement from Dr. Norris' office over the signature of Marvin D. Simpson, that the latter had been retained to represent the minister. No reason was given for the change in plans.

GOV. BREWSTER AGAIN CHAIRMAN OF GOVERNOR'S MEET

Casper, Wyo., July 25.—(P)—Governor Ralph O. Brewster of Maine was re-elected chairman of the 1927 executive committee of the governors' conference at a meeting of the newly selected committee.

Portland Firm To Receive Merchandise By Air Route Today

Portland, Me., July 25.—A new step forward which will make another page in the history of Maine's progressiveness will be enacted on Friday next with the arrival, at the Stroudwater aerial landing field here, of the largest single shipment of merchandise ever to be consigned to one merchant in the United States by airplane transport. This shipment will also be the first ever made for merchandising to a firm in the State of Maine.

Credit for this achievement goes to Mr. M. J. Ryan, manager of the J. R. Libby Department Store, who are financing the exploit, and thru whom all arrangements with the Government Air Officials have been made.

The shipment will be made by the Colonial Air Transport Inc., the aircraft being made through J. T. Trippe, the managing director of the company of New York who will personally accompany the plane.

The consignment will consist of several hundred dresses, especially made for the enterprise furnished by the National Dress Co. and the Goodman and Mana Co., both of New York. The dresses will come in boxes which will bear postage at the rate of 10 cents per ounce or fraction thereof.

The goods will leave New York at 6:30 (day light) Friday morning by U. S. Mail plane arriving at the East Boston Air-Port at 9 o'clock. Here they will be received by J. J. Nolan, superintendent of the Air Mail Transport, Boston post office, who has received special permit granted by the Post-Master General at Washington, giving permission to intercept the mail at the field. Here it will be transferred to one of the Colonial Air Transport planes, which will leave Boston around noon arriving at the Stroudwater landing field at (Continued on Page 4, Col. 5)

Forest Fires in Moosehead Region Are Under Control

Forest Commissioner Neil L. Violette received a report yesterday forenoon from District Supervisor Bryant Jones, who is at Sebago, stating that the big forest fire which has been sweeping everything before it in West Middlesex since Saturday, has finally been controlled.

A big crew of men under the supervision of Chief Warden Errol Hilton has been fighting this fire, the most stubborn so far this year, since it was reported on Saturday.

Other fires were reported today from Mosquito Brook, in Aroostook County, and from Duquann, township 9 Range 18, Chief Warden W. J. McRae reporting these last outbreaks.

Relief is expected from rain in various parts of the Forest District, light rains having already occurred.

Average Milk Production in N. E.

Wakefield, Mass., July 25.—(P)—Milk production in New England on July 1 was about the same total as last year at that time although the production per cow was 5.8 per cent higher. The New England crop reporting service said in its monthly dairy letter today. The cool season was favorable to milk flow but pastures were later than usual in furnishing good feed, so that the production peak this year was likely to be later than in 1925.

Vermont and Connecticut showed considerable gain in daily milk production, while Rhode Island showed a material loss and Maine a slight one.

Drowning Victims 215 In Hurricane

Damage Will Reach \$10,000,000 in Nassau and Bahama Islands

More Than 75 Boats Sunk or Destroyed in Terrific Blow—Many Families Homeless in Nassau—Fear for Safety of Sponge Fleet—Numbers 150 to 200 Small Sloops and Schooners

(By The Associated Press)

With an unofficial estimate of from two hundred to two hundred fifteen dead and over ten millions of property damage attributed to its fury, the West Indian hurricane which after lashing the east coast of Florida for two days before it passed into Georgia, tonight had spent its strength and was moving slowly westward carrying but a capful of wind and a misty rain.

Weather bureau officials expected the storm to pass into Alabama during the night where it would spend the last remnant of its strength in rains.

More than one hundred fifty persons were believed drowned and \$3,000,000 damage caused when more than 75 boats belonging to the (Continued on Page 4, Col. 4)

Leaders Declare New York Subway Strike Is At An End

New York, July 25.—(P)—Leaders of the striking subway motormen and switchmen announced tonight they had released their men from strike obligations and had declared the strike at an end.

The leaders said the strikers will be taken back by the Interborough Rapid Transit Company at the wages they previously received, but that they will not regain their lost seniority.

It was the second time in two weeks that the strike had been declared ended. The first time the men refused to return to work and officials refused to take them back as a group. A general strike of all subway workers in the city had been called for Saturday but company officials insisted that few of their employees would answer it.

Strike leaders said tonight their men will return as individuals and the leaders themselves will be taken back, if at all, after their individual grievances have been considered by company officials.

Record Pull by Oxen at Amherst

Amherst, Mass., July 25.—(P)—A record for weight hauled by oxen was claimed today when a team owned by J. H. Guilford of Ashfield pulled the equivalent of 13 1/2 tons a distance of 12 feet. Second place was awarded a team owned by Rufus Fitts of Shutesbury, which pulled 12 tons a distance of 27 1/2 feet.

The contest was part of the program of Farm and Home Week at Massachusetts Agricultural College. More than 2,000 farmers attended today's sessions of Farm and Home Week, making his first public appearance in New England, gave an informal talk on local conditions and he had observed them during his visit to this section. Another speaker was Mrs. Julian Dimock of E. T. Corinth, Vt., the only woman member of the Vermont legislature.

THE WEATHER

CLOUDY
Northern New England—Mostly cloudy Friday and Saturday; local showers Friday; little change in temperature.
Southern New England—Local showers Friday and possibly Saturday; not much change in temperature.
Eastern New York—Mostly fair in north and local showers in south portion Friday and possibly Saturday; not much change in temperature.

Storm-Buffered Steamer at Havana

Havana, Cuba, July 25.—(P)—The Ward line steamer Orizaba from New York, limped into port today with three injured persons aboard and her hull and superstructure battered. The damage was sustained while the steamer was battling with the West India hurricane from Monday night to Wednesday morning, standing by the Italian steamer Ansaldo, Giorgio Secondo, of Jupiter Inlet, Fla.

Holds Optimistic Talk With President At Summer Home

RICHARD WASHBURN CHILD

INDICTMENTS BREAK UP GREAT LIQUOR ORGANIZATIONS

Buffalo, N. Y., July 25.—(P)—The indictment of about 50 Buffalo and Niagara Falls men by the federal grand jury at Jamestown today on charges of violating the prohibition law marked the breaking up of one of the most important illicit liquor organizations in prohibition history in the belief of federal officials. The organization had ramifications as far west as Detroit and as far east as the Atlantic seaboard and was declared to be one of the biggest sources of bootleg liquor on the continent.

Disclosures concerning this huge rum ring eclipsed in public interest the developments in the investigation into the distribution of poisonous alcohol in western New York and Ontario which resulted in the deaths of more than two score persons. Buffalo police announced that they had located 2,000 gallons of a 4,000 gallon shipment of the poisonous alcohol, in small lots throughout western New York and along the Canadian border.

Search was continued for "Davy" Borden, Buffalo, alleged wholesaler of the poisonous liquor, and two chief lieutenants, Nathan Sapowich and David Goldberg, of Buffalo. The arrests of the chemists that they told the latter pair the liquor was wood alcohol and poisonous before it was released.

Federal Attorney Richard H. Tenpleton, who presented evidence of the rum conspiracy to the grand jury at Jamestown, said the government had made the greatest single stroke against bootleggers that it had ever accomplished. Explaining the source of the rum, he said that about 4,000 gallons of alcohol was withdrawn monthly under permit from government warehouses, through the Jopp Drug Company of Buffalo and the Palmetto Tonic Company of Niagara.

A fleet of motorboats on Lake Ontario transported this alcohol to Canada, where it was re-distilled and mixed with Canadian whiskey. The mixture was bottled and sealed with labels, wrappers and government stamps.

Government agents traced the liquor from these plants to Toronto and on to Halifax and other Canadian ports. From these ports the liquor was loaded on rum ships and taken down the coast where it found its way back into this country.

Photographer's Flash Frightens People In Mexico Cathedral

Mexico City, July 25.—(P)—Three persons were badly crushed, including a young man and his mother, in the Mexico City cathedral when the flash of a newspaper photographer's flashlight caused a panic. Those inside the crowded edifice believed it was the beginning of a conflagration.

Hearing the explosion, the people made a frantic rush for the door, or rather tried to do so. The solid masonry in which they stood was what saved many from being injured or killed, for they were wedged so tight it was impossible for anybody to move much.

Storm-Buffered Steamer at Havana

Havana, Cuba, July 25.—(P)—The Ward line steamer Orizaba from New York, limped into port today with three injured persons aboard and her hull and superstructure battered. The damage was sustained while the steamer was battling with the West India hurricane from Monday night to Wednesday morning, standing by the Italian steamer Ansaldo, Giorgio Secondo, of Jupiter Inlet, Fla.

DEMOCRATS MEET AT ROCKLAND TO DISCUSS CAMPAIGN

(Special to the Kennebec Journal)

Rockland, July 25.—There was a large delegation of the Knox county Democratic committee and candidates to greet Mayor Ernest L. McLean and Charles M. Starbuck at the court house in Rockland this morning. The meeting was called to order by Ensign Otis, county committeeman for Knox county, and was organized by the election of Henry H. Payson as county chairman, Charles A. Creighton as treasurer and Mrs. Richard Elliott as secretary.

The meeting was largely devoted to a discussion of organization plans. Mr. McLean and Mr. Starbuck both spoke briefly.

Mr. McLean brought out a new thought in his discussion of the financial situation. He stated that the state auditor should tell the public what had been done with the \$312,000 brought over from ex-Governor Baxter's administration in excess of the \$300,000 used to make up the contingent fund for the last fiscal year. He stated that Gov. Baxter's figures showed that \$312,000 had been turned over by him to the present administration; \$300,000 of this had gone into the contingent fund. He desired that the state auditor should tell the public what had become of the balance of \$12,000.

Mr. McLean also referred briefly to the needs of our state institutions (Continued on Page 4, Col. 5)

50 FORCED OUT AS FLAMES DESTROY OCEAN VIEW HOTEL

South Hartswell, Maine, July 25.—(P)—Fifty guests fled from the Ocean View Hotel as the house was destroyed by fire at midnight tonight. The flames were visible 20 miles at sea.

The origin of the fire was undetermined. A fiery cross had been burning on a nearby hill shortly before the fire in the hotel was discovered, but whether sparks from that or from the hostelry's chimney started the flames, firemen were undecided.

A guest was injured but practically all lost all their possessions. The hotel, which stood on an eminence overlooking Casco Bay, formerly was the Lawson Hotel, and from 1905 was one of the best known in Maine. It was owned by Eli Perry of Portland.

New High Marks For Common Stocks Gen. Motors, U. S. Steel

New York, July 25.—(P)—The common stocks of the General Motors Corporation and U. S. Steel Corporation, two of the largest industrial concerns in the world, advanced to new high marks for all time today in one of the greatest buying demonstrations ever witnessed on the New York stock exchange.

General Motors soared 12 1/2 to 131, or an extreme gain of nearly 14 points in two days and over 75 points above the year's low established on March 23. Total transactions in this stock for all time today in one day reached 23,000 shares, against a low of 117 a few months ago.

The sensational advance in these issues, which has overshadowed all other developments in the stock market in recent weeks, has been credited in Wall street to a powerful speculative group headed by William C. Durant, the automobile manufacturer.

Clever Copper Container Copped

Lynn, Mass., July 25.—(P)—Here's the latest in rum running. A clever copper container made like a baseball catcher's small protector and containing a gallon of liquor, fitted snugly to the body.

White attributed the transformation to a vacation, but the skeptical officers decided on a search. They discovered a copper container made like a baseball catcher's small protector and containing a gallon of liquor, fitted snugly to the body.

Approve Money Bills of Poincare

Paris, July 25.—(P)—Premier Poincare's bill providing measures designed to put the country on a sound financial and economic basis, was approved by the finance committee of the chamber of deputies today, 19 votes to 13, with one abstention.

Findings of Richard Washburn Child, Ex-U. S. Ambassador To Italy

Guest of President at White Pine Camp—Tells Him Congressional Election Campaign Shaping Up for Administration—General Assumption Will Be Candidate to Succeed Himself in 1928

Paul Smith's, N. Y., July 25.—(P)—An optimistic report on political conditions was given President Coolidge today by Richard Washburn Child, former ambassador to Italy, who said the congressional election campaign was shaping up favorably for the administration.

Discussing conditions later with newspaper correspondents, Mr. Child, who had been a guest at White Pine Camp since Tuesday said in response to questions that there seemed to be a general assumption in the country that Mr. Coolidge would be a candidate to succeed himself in 1928. In the opinion of Mr. Child, the president was personally responsible for the economy program of the federal government and also for Washington's not becoming a bureaucratic center.

Mr. Coolidge, he emphasized, in the latter connection, is a conservative Republican who is more for decentralization of the national government. (Continued on Page 4, Col. 6)

Four Not Guilty In Offences Against Two Petet Girls

Tia Juana, Lower Calif., July 25.—(P)—Zenaida Llanos, former police chief, and three others charged with offenses against Clyde and Audrey Petet, American girls, here last February, were acquitted by a jury in the court of instance here tonight.

Blames Klan for Defeat in Primaries

Bangor, July 25.—Artemus Weatherbee of Lincoln, who has served as county attorney of Penobscot county for four years, yesterday issued a statement to the voters of the county and followed it immediately with his resignation to Governor Brewster, with the request that it take effect at once.

In his statement he declares that his defeat as candidate for re-nomination at the June primaries was due to the Klan. He said he was "absolutely refused on request to dismiss Frank J. Rogan, one of the ablest investigators in Maine," and "insisted that the Constitution of Maine protected him in his religious rights that no good American ought to question, and that the control of the courts should not be endangered through Klan activities."

He said the county attorney so long as I held that office.

In the June primaries, Mr. Weatherbee was defeated by George E. Eaton of Bangor. In the eve of the resignation being accepted it is presumed that Mr. Eaton will be appointed to fill the vacancy in season to take up the work with the grand jury at the opening of the September term of court.

Missionary Society Elects at Ocean Park

Ocean Park, Maine, July 25.—(P)—Mrs. Lucy Phillips Durgin of Wimpag, Minn., was elected president of the National Free Baptist Women's Missionary Society at the annual meeting of that body here. Other officers chosen were: Vice president, Mrs. Maud W. Kenyon, Arlington, R. I.; corresponding secretary, Mrs. L. E. Donnet, Providence, R. I.; recording secretary, Mrs. Nelson Jose, Portland; treasurer, Miss Edith R. Porter, Portland.

Vermont Boy Killed By Bolt Lightning

Burlington, Vt., July 25.—(P)—Lucius Smith, 17, leading a pair of horses to the barn on a farm near Richmond late this afternoon during a heavy thundershower, was struck by lightning and instantly killed. One of the horses was stunned temporarily. The building and contents being destroyed.

Form Fishing Clubs At New Jersey Resorts

Lake Hopatcong, N. J., July 25.—(P)—Two Coolidge fishing clubs have been formed at Jersey Beach resorts or will be this afternoon during the exploits of the Adirondack fisherman. A 247-pound tuna was turned in by a member to match that six-pound pike—or was it pickerel?
